

NLP TRAINING SERIES

NLP stands for Neuro-Linguistic Programming, in which I would call it a psychology of excellence and a technology of achievement. The neurological system regulates how our bodies function, our mind and how we think and behave which stems from our 5 senses.

Language in this case means verbal and other non-verbal communication systems through which our perceptions are coded, ordered and given meaning. It also meant how we use such languages to order our thoughts and to communicate with others.

Our programming determines how we organized our ideas and actions to achieve our results and the kinds of models of the world we create. Neuro-Linguistic Programming describes the fundamental dynamics between mind (neuro) and language (linguistic) and how their interplay effects our body and behavior (programming).

NLP for TEACHERS

Neuro-Linguistic Programming (NLP) is an established set of principles for teaching, learning and personal development. This course will explore the core principles of NLP and how these can be applied to both your professional and personal life. NLP is "the study of excellence" and provides you with a variety of strategies for maximizing both your teaching and learning potential.

NLP is a unique approach to understanding how we learn and communicate with others. NLP deals with how you relate to others, how you make decisions, deal with conflict and how you influence others. It can help you create rapport with others and become more skilful in designing, planning and delivering effective learning and teaching environments and activities.

Course Content

- An historical overview of NLP
- Presuppositions: The new foundations of education
- Sensory Acuity and Eye accessing cues
- Representational systems and sub modalities.
- Visual, auditory and kinesthetic learning styles
- Rapport building strategies and maintaining healthy group dynamics
- The five levels of learning
- How to achieve a healthy resource state
- Metaphor as a powerful learning tool
- Managing "difficult learners" effectively.
- Asking quality questions in the classroom.
- Working towards high yield classroom dialogue
- Effective use of language in the classroom.
- Giving effective instructions.
- Limiting beliefs and negative internal dialogue examined
- From different points of view.
- How I will take what I've learnt from this course into my teaching

Your (L)earnings:

- Developing a greater level of rapport with all pupils
- Gaining greater flexibility and results in working with difficult pupils
- Developing greater problem solving abilities
- Discovering preferred learning styles of pupils and allowing them to be different.
- Allowing pupils to share how they do things so that they can model each other.
- Helping pupils to access an appropriate state to learn easily.
- Separating the behaviour from the child.
- Encouraging them to see things from different perspectives.
- Giving more Imaginative, Creative and Stimulating Lessons
- Learning to teach through greater use of metaphor and stories
- Developing greater management of your own emotional state.
- Developing a Flexible and Positive attitude towards your pupils learning experience
- Ensuring your students learn quicker and to deeper levels.
- Using language which improves learning potential

NLP for

Neuro Linguistic Programming (NLP) is the art and science of Personal Excellence. It reveals how people learn, think, and how they do things excellently: how some people excel and how to replicate that success! We deliver difference that makes the difference between those who stand out and those who get by.

NLP Applications are explicitly or implicitly taught within the world's most advanced leadership and personal excellence courses. Our highly developed programme starts where other personal excellence programmes end. We do not simply provide you as the majority of Personal Excellence courses do with a motivation injection which wears off weeks, months later. We enable our learners to embody the skills themselves used by outstanding performers and well known personal excellence celebrities. This is why people dedicated to self improvement and personal excellence travel to work with us from all over the world. The *ProGENIUS* is second to none.

You will learn:

- Build rapport quickly with everyone you interact with
- Communicate effectively with thinking and learning styles of people you meet
- Motivate people to be their very best.
- Manage your state of mind.
- Create the right environment for you
- Approach issues from multiple points of view.
- Translate concepts into achievable activities.
- Develop coping mechanisms to deal with complex situations.
- Understand models of leadership and personal excellence.
- Discover that the intuitive qualities of great leaders can be learnt.
- Enhance your own personal performance in the context you choose, e.g. discussions, activities, meetings, negotiations, and presentations.
- Create the right work life balance for you.
- Develop robust, lasting and practical stress management skills to beat stress forever.
- Set compelling and consistently achievable goals - and achieve them
- Enhance your business and personal success
- Improve results by challenging what limits your performance
- Gather specific, high quality information from people and use it to achieve outcomes

ProGENIUS is India's premier training institute where your innate genius would be unleashed. We are specialized in the field of neuro linguistic programming, genius strategies, accelerated learning, soft skills and all psychological services. We believe in social transformation through individual transformation. We would help you to improve the quality of your life, career, business, health, wealth and knowledge.

Pro represents proactive, provocative, programmed, progressive, and professional. Genius refers exceptional intellectual ability, creativity, originality and mastery. ProGENIUS is beyond Personal Development, it's about making you a genius in your chosen field. We provide world-class training in NLP, personal excellence and corporate effectiveness. In all the cases, our workshops are highly effective and useful for most anyone regardless of background. You can anticipate learning more at one of our events than at many others of similar duration.

We are inspired by the words of famous psychologist J.B. Watson, father of behaviourism; and by the work of a Hungarian teacher Laszlo Polgar, father of Polgar sisters. Watson said "give me a child, I will make him whatever you want". Lazlo said "every child can be made into a genius with sufficient training". If a child can become a GENIUS, YOU can also!
