

We are delighted to inform you that **Ripples-Center for Enhanced Learning** has become the sole **Authorized Training Center** for **Pearson Clinical and Talent Assessment (PCTA)** in Andhra Pradesh.

Pearson is the world's leading education company. **Pearson School** is the fastest growing chain of schools in India with 27 schools in 17 cities and over 15,000 students across India, so far. It also owns **Penguin Books** and **The Financial Times** newspaper.

Pearson Clinical and Talent Assessment (PCTA) is a part of **Pearson** group. It is one of the world's largest developers and distributors of psychological testing material for use in assessing intelligence, memory, neurocognitive functioning, academic achievement, work aptitude, personality and many more. The company is committed to their motto of '**Always Learning**' by providing quality content in assessment and education services thereby catering to learning curve from birth through university and beyond.

Ripples-Center for Enhanced Learning is a place devoted to assist and guide individuals towards discovering new dimensions of learning. It has been actively involved in the special education work since 7 years. It offers **Sounds in Syllables Dyslexia Therapy, Dyslexia Teacher Training, Academic Consulting, Montessori Learning, Psychological Assessments, Psychological Counseling, and Parent Empowerment Programmes**. It intends to, in all that it does, reach out and transform lives for better. The team at **Ripples** strongly believes that we all have inherent potential to be the best and the secret of getting ahead in life is getting started!

As **Authorized Training Center** for **Pearson Clinical and Talent Assessment (PCTA)**, **Ripples** is committed to provide superior quality **psychological assessment** and **effective educational intervention** that will promote effective learning, positive self-worth and overall well-being among students and adults alike.

It is estimated that about 12 to 15 % of all school children in India, struggle with learning disorders. Taking initiative, at the earliest, to identify students who are 'at risk' of developing learning disorders and taking active measures to empower them will pre-empt severe learning issues later in life. A stitch in time saves nine holds true here.

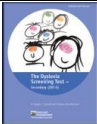

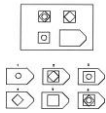

ASPIRE - TRANSFORM - EVOLVE

Center for Enhanced Learning

We offer workshops to help professionals such as clinical psychologists, psychologists, special educators, counselors and school teachers as well as students of Psychology to enhance their knowledge of psychological assessment. These workshops will equip them to identify ‘at risk’ children. The salient features of our workshops are:

- Supervised hands-on training of how to administer, score and interpret the tests
- Training by Pearson certified trainers
- Certificate of participation from **Pearson**

One day training workshops for the following tests is offered at Ripples:

Dyslexia Screening Test-Junior	
Dyslexia Screening Test-Secondary	
RAVENS Colored Progressive Matrices / Crichton Vocabulary Scale	
RAVENS Standard Progressive Matrices / Mill Hill Vocabulary Scale	
COGMED Teacher Training for prospective COGMED Coaches
